

Scout Referral Program

Save 10%
or more off the cost of your next program

Primitive Pursuits instructors are passionate about what we do. We seek in every skill we teach and story we share to strengthen participant's relationship with the natural world, themselves, and our community.

Through the years we have grown from a single after school enrichment program to a year round community wide **nature awareness initiative** working with youth, teens, college students, and adults. As we approach our tenth year of service and as part of the growing "no child left inside" movement we hope you will continue to support the cause and help your budget too!

Simply by participating you are helping to further our mission of making lasting relationships available to everyone. Thanks for your support.

If you **know of someone** who would equally enjoy or benefit from a Primitive Pursuits program as you or your family have, who have not yet participated, refer them to us, and when they sign up for a program you can take **10%** of the cost of that program from the tuition cost of your next program. Refer additional families and receive additional discounts.

Be sure to tell your friend to indicate that you recommended them when they register (there is a space on the registration form). We will do the rest. If you have any questions about our Scout Referral System please feel free to contact us.
